

The Trail is designed as an A3 leaflet, but it can also be printed in a smaller size. If you want to download and print copies of the Trail you will need to print the two files onto both sides of one sheet of paper, then fold the page in half and then into three panels as shown below.

1. Hold the map in front of you.

2. Fold it in half.

3. Turn anti-clockwise so you can read the text then fold into three.

4. Fold in the right hand third.

5. Fold in the left hand third to show the front cover.

We hope you have as much fun on the Trail as the children did creating it.
